

To Whom It May Concern,

I am the principal of Lakeside Middle School in Little Elm, Texas and we recently hosted a Measured by Character Assembly. I must say that in my 21 years in the education business and the numerous class assemblies I have been a part of, none compare to this one. The passion that Mr. Wade White presents with mixed with the content of the assembly touches the hearts of students, teachers, and administrators alike. We had students in tears hugging, asking each other for forgiveness, and forgiving each other. If you are looking for a program that is based on teaching your students the value of how they treat themselves and how they treat each other you need to look no further than Measured by Character.

Thank You,

Clint Miller
