To Whom It May Concern:

Thanks to the generosity of Callisburg ISD, our 5th – 12th grade students, teachers, principals, and coaches were mesmerized, touched, and transformed this week by having the opportunity to experience the **Measured By Character** program. In my twenty years in education, I have never felt such an impact either on myself or witnessed one as great on our students, as well as staff, as I did during and after Wade White's program. In fact, the dynamisms of **Measured By Character** changed the feeling and the mood around our middle and high schools.

Although the presentation is over, the message will live on. White's R.A.K., Random Acts of Kindness Tank, will allow our students the opportunity to submit their Acts of Kindness on cards left by Mr. White. Thus, R.A.K will help to keep the message of **Measured By Character** alive in our school. The incentives we will give out at the end of the week will also help to keep our students actively reaching out to help one another.

At this time, we are humbled and excited to "pay it forward" to your school so that you can experience what it means to be **Measured By Character**.

Sincerely,

Andrea Pembroke, M.Ed. School Counseling
