March 23, 2015

This year our students had the opportunity to hear Wade White’s program “Measured by Character.” Having been an administrator now for over ten years, I have seen a lot of these types of programs, but I have never seen a program that hit home for our kids better than Mr. White’s. A phenomenal speaker, Mr. White challenged our kids to look at themselves—who they wanted to be, what type of legacy that they wanted to leave. He got their attention. I saw kids talking to kids they have never spoken to before. I saw kids being attentive, truly taking in the message that was being delivered.

This is program that every kid needs to see. It will make an impact on their lives.

Todd Southard
Principal
Pilot Point High School
